2. **Environments:** MS Windows 9xx/NT/2000/XP, Unix
3. **Databases:** MS SQL Server; MySQL; Oracle; MS Access, ODBC, ADO
4. **Applications:** MS VisualStudio, MS Visual InterDev, MS FrontPage, MS Office, MS Project; Macromedia ColdFusion Studio, Dreamweaver, Flash, Fireworks; Adobe Photoshop, ImageReady, Illustrator; Paint Shop Pro

### Major Assignments

June 2008 - Present

#### Web Developer/Programmer – gsMarketing (Houston, TX)

Web development and database integration.

Project: Web development for Marketing Systems (June 2008 – Present)

- Interface with clients in their requests for new web site development.
- Create both Internet/Intranet web sites for a client's department.
- Developed web applications using ColdFusion components and tags, as well as JavaScript.
- Optimized existing code and SQL queries to improve performance and code re-use.
- Build sites with extensive use of stored procedures to optimize database operations.
- Web Authoring Tools: Dreamweaver CS3, Version Control, W3C Markup Validation
- Environment: ColdFusion MX 8/9, SQL 2005, Windows XP

### Websites

- Dealer Database Admin
- My Mailer Website
- GST Dealer Technician Job Postings
- GSFS Financial Products Website
- GST Marketing Accessory Website
- GSTTS Company Website
- ORRAC Company Website
- SEM Landing Pages
- TMS Report Card Website
- Mystery Shopper System
- Service Mystery Shop Report Website
- Quality Memo Site
- Atom Suggestion and Enhancement Request Portal
- GSM eCertification Regional Sites
- All Dealer Listing Pages
- MAG and Dealer Group Map Pages
- GST Dealer Locator
- New Email Template Development
- Custom Email Projects

**June 2007 – June 2008**

**Web Developer – M.D. Anderson Cancer Center (Houston, TX)**

Web development and database integration.

Project: Technical Support for Internet Services (June 2007 – Present)

- Interface with clients in their requests for new web site development or maintenance of an existing web site.
- Create both Internet/Intranet web sites for a client's department.
- Develop applications using ColdFusion components and tags, as well as JavaScript.
- Optimized existing code and SQL queries to improve performance and code re-use.
- Extensive use of stored procedures to optimize database operations.
- Web Authoring Tools – Dreamweaver 8, Eclipses, Subversion Version Control, W3C Markup Validation and Aqua Data 4.7

**Environment:** ColdFusion MX 7, Oracle 10g, Windows XP

**Web Sites:** [www.mdanderson.org](http://www.mdanderson.org) and M.D. Anderson's Employee **Intranet Project List:** Adopt-a-Family, Employee Discounts, Desktop Equipment Requests, Radiology Image Requests, Publications Online Store, Public Education Services, and other automations

**May 2006 – June 2007**

**Web Developer – MyITGroup, Ltd. (Houston, TX)**

Web development and database integration.

Project: BlueRecruiter (July 2006 – June 2007)

- Public recruiting site similar to Monster.com for SAP job seekers and employers.
- Optimized existing code and SQL queries to improve performance and code re-use.
- Extensive use of stored procedures to optimize database operations.
- Environment: ColdFusion MX 7, MS SQL 2000, Windows Server 2003
- Web Site: [www.blurecruiter.com](http://www.blurecruiter.com)

Project: MyIT Referral System (May 2006 –June 2007)

- Participated in development of ColdFusion components to facilitate rapid development.
- Built a job referral application from scratch based on these components.
- Extensive use of views and stored procedures to optimize database operations.
- Environment: ColdFusion MX 7, MS SQL 2000, Windows Server 2003
